DETAILED ACTION

Specification

1. The abstract of the disclosure is objected to because the reference numerals should be enclosed in parentheses. Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-4, 8-12 and 16-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Mikami et al (US 4,375,229).

Mikami discloses a wire measuring/cutting apparatus (3, 5); clamps in Fig. 8; a conveying apparatus 61; terminal crimping apparatus 9; a die and anvil set, which is an applicator, is arranged obliquely with terminals as shown in Fig. 1 by the way terminals are dispensed from the side of reel rather than directly below; one of 63 is a switching unit; the terminal reels from each unit 9 and a die and anvil set are in a zigzag manner; another one of 63 is a table; Fig. 11 shows wires are fed individually to 9A-9C; 10 is an inspection station; it is inherent that the wire is dispensed from a roll.

Allowable Subject Matter

4. Claims 5-7 and 13-15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. Please provide reference numerals (either in parentheses next to the claimed limitation or in a table format with one column listing the claimed limitation and another column listing corresponding reference numerals in the remark section of the response to the Office Action) to all the claimed limitations as well as support in the disclosure for better clarity (optional). Applicants are duly reminded that a full and proper response to this Office Action that includes any amendment to the claims and specification of the application as originally filed requires that the applicant point out the support for any amendment made to the disclosure, including the claims. See 37 CFR 1.111 and MPEP 2163.06.
